'Men occasionally call me a tease, and I think, looking at these pictures, I can understand why. I seem to have that mocking look that young girls keep for when they want something they're not supposed to have, but know they're going to get. Like a good pussy licking.

'Actually I admit I tease, but it certainly isn't out of any malicious attitude on my behalf. I wouldn't lead a man on then say no, but when I know I'm going to fuck a man, I like to play along a bit, like a little girl I suppose, to get him more aroused.

'Too many girls these days are ready to fuck as soon as they get indoors, but I like to put on a show for my man – put on a little strip, then don't let him touch me, that sort of thing. It heightens the anticipation for both of us, then when the moment comes for him to slip his delicious hard cock well in to my sopping pussy, we both orgasm very quickly. Absolute heaven!' ♣
